
California Corporate Car Rental

California Corporate Car Rental

California corporations looking for a reliable, cost-effective rental car company to partner with need look no further than Executive Van SUV Rental. Although the name of the company suggests only van and SUV rental, they also provide a range of quality economy cars, compact cars, sports cars and convertible cars for corporate and personal rental. Executive Van SUV provides large size vehicles for California business meetings, workshops, retreats and group travel. Their rental vehicles include 8 passenger Van-SUV, 9 passenger Van-SUV, 12 passenger Van or 15 passenger Van options. All of their rental cars are just like new, and have the benefit of being equipped with modern vehicle safety features.

Another reason Executive Van SUV is such a popular choice for California car rentals is their ability for car drop off at a variety of airports throughout the state. Not only can their rental cars be dropped off in California, Executive Van SUV also has drop-off locations at the Las Vegas McCarran Airport, Nevada airport and the Phoenix Arizona airport. The many number of drop offs locations make the rental cars a great option for corporate travel that requires visiting more than one California city, or corporate clients arriving at LAX and departing at San Diego's Lindberg Field airport. Executive Van SUV Rental also provides corporate discounts for businesses, church groups and social clubs, making their already low rental car prices practically a steal. GPS systems are also available as an add-on to their rental cars with turn by turn voice directions to make finding your way around California a cinch. Contact Executive Van SUV Rental to reserve a corporate car rental rate or learn more about their quality rental cars at a budget price.
